

# SUMMER SHOW 2019

VI. Edition

It is my immense pleasure to present works by the 35 artists shortlisted to participate in the 2019 Summer Show.

The exhibition showcases artworks that reflect contemporary art today, brought together from a wide range of cultures. Contemporary in the use of new mediums of expression, the artists are true representatives of their distinctive and unique cultures and artistic identities.

All the artworks presented in this catalogue are strong, meaningful and refreshing expressions of contemporary art that embody the force driving individuals to express and affirm their personality and presence within today's modern art landscape.

The Summer Show includes sculpture, painting, drawing, and photography and places no restriction to the artist, regarding age, training or nationality. The majority of the artists will be present at the opening evening, the works are all for sale and this is an opportunity for all of us to celebrate a moment of oneness and gain more understanding of the artworks from the artists directly.

Welcome to the VI. Edition of The Summer Show 2019.
